

# Kinaxis Planning One

Go from Excel to advanced planning in as few as 12 weeks

## A low-risk, low-cost, fast time-to-value entry point to digital supply chain transformation

Rapidly rising global supply chain disruptions mixed with everyday volatility mean your business is facing more pressure than ever before. You know you need to break down silos, connect functions and digitally transform your supply chain to survive. But challenges are everywhere. Unpredictable cash flows. Overstretched teams. And an urgent need for agility and resiliency now.

Kinaxis<sup>®</sup> Planning One<sup>™</sup> makes it quick, easy and affordable for companies of all sizes to get started with their digital supply chain transformation and enable concurrent planning across end-to-end supply chain planning processes.

## The fastest end-to-end in-production go-live on the market

When paired with a Kinaxis RapidStart deployment, companies can go live with Planning One in as few as 12 weeks. No pilots. No proof of concepts. Just a full in-production implementation using tailorable industry best practices, so you get increased visibility and transparency and accelerated decision-making, right out of the gate.

## 01 Quickly go from Excel to advanced planning

Get immediate relief of your biggest pain points by making the switch from Excel to advanced planning in as few as 12 weeks with the fastest in-production go-live on the market.

## 02 Effortlessly build enterprise-wide trust

Break down silos, create a shared, single source of truth and align your organization around critical business objectives to cultivate trust across the entire organization.

## 03 Seamlessly expand your digital transformation

Easily extendable with no loss of investment by adding on a wide range of additional planning functionality, including S&OP, demand sensing and the Kinaxis Command & Control Center.

### An all-in-one advanced planning solution

Planning One combines the essential capabilities of a control tower with the instant and continuous synchronization of concurrent planning across demand, supply, inventory and operational planning. All leveraging the full power of the industry's only true concurrent planning platform Kinaxis RapidResponse®.

Control tower essentials			
End-to-end visibility   Root cause analysis   Actionable insights   Smart collaboration			
<b>Operational Planning</b> <ul style="list-style-type: none"><li>Annual plan management</li><li>Target setting</li><li>Role-based dashboards</li><li>Executive review/approval</li></ul>	<b>Demand Planning</b> <ul style="list-style-type: none"><li>Consensus demand planning</li><li>Forecast accuracy and forecast value-add (FVA) analysis</li><li>Assumption management</li></ul>	<b>Supply Planning</b> <ul style="list-style-type: none"><li>Excess and gating materials identification</li><li>Constraint load management</li><li>Supply and demand balancing</li></ul>	<b>Inventory Management</b> <ul style="list-style-type: none"><li>Inventory analysis/policies</li><li>Excess and obsolete analysis</li><li>Inventory transfers</li><li>Inventory quality ratios</li></ul>
Kinaxis RapidResponse® platform			
Execution alignment   End-to-end synchronization   Automated intelligence   Scenario planning			

### Expand at your own pace with zero loss of investment

Built on the industry-recognized and customer-trusted RapidResponse platform, Planning One is a fully featured package that's seamlessly expandable with zero loss of investment. Easily take your supply chain to the next stage in your maturity journey by adding on any other Kinaxis application or industry package including supplier collaboration, order fulfillment, inventory optimization, transportation optimization, production scheduling and more!
